

Technical data

Material:
fine rubber granules and recycled rubber fibres bonded with polyurethane elastomer
Density: approx. 770 kg/m³
Material thickness: thickness: 4 mm (± 0.3 mm)
Width: 1,500 mm (± 1.5 % mm)
Colour: black
Tensile strength: approx. 0.6 MPa, DIN 53571
Elongation at break: approx. 60 %, DIN 53571

Material:
fine-grained or coarse-grained coloured EPDM granules, PU-elastomer bonded.
Available Colours*: red
Suitable for use as outdoor sports surfacing, installed with or without elastic underlay
Material: fine-grained
Roll width: 1250 mm (± 1,5%)
Thicknesses: 3 mm (± 0,3 mm)
Fire resistance: Efl standard, Bfl s1 on request
